Ancient Greece Project

You will be researching a topic related to Ancient Greece. It is your job to gather information so that you may teach your classmates about the topic of your choice. You must find 10-15 important facts relating to your topic. You must also create a visual that goes along with your topic. Your visual must be large enough for your classmates to see. Some examples of visuals are: posters, cut-outs, pictures, slide shows/power point, etc. Your facts must come from at least two different sources, one of which should be a book/magazine, and the other, digital (website, online journal, etc.) The following are acceptable project topics:

If you have an idea for another topic, please ask. I will let you know if there are enough resources in our school library. After completing your research, you must put your facts in order in paragraph form. You should have 2-3 paragraphs worth of information on your topic. You must either provide me with a printed copy, or share the document on Google Drive. This project is worth 50 points.
